

Mazda MX-5 Cup Car Technical Service Bulletin #2022-01-13 #A

Optional: Additional Production Welds

This TSB describes: Additional Production Welds implemented by Flis Performance.

Flis Performance has implemented a running production change adding welds to the lower door bars and the shoulder belt bar for added support. These welds can be added to previously built cars as an option. **These welds must be performed by Flis Performance** and are at no cost to competitors. Competitors will be responsible for their own transportation of cars to and from Flis Performance who is located in Daytona Beach, FL. Any costs for paint touch up will be at the competitor's expense. Advanced scheduling is required. Time blocks will be available only during Flis Performance Standard Operating hours. Monday-Friday 8am-5pm. Please contact Ashli Richardson to reserve a date and time.

For any questions or concerns, please contact us:
