

Mazda MX-5 Cup Technical Service Bulletin #2023-01-10

Flis Performance High Energy Bumper Insert

Optional: For Daytona International Speedway 2023

Required: For St. Pete 2023 and all Mazda MX-5 Cup Series events

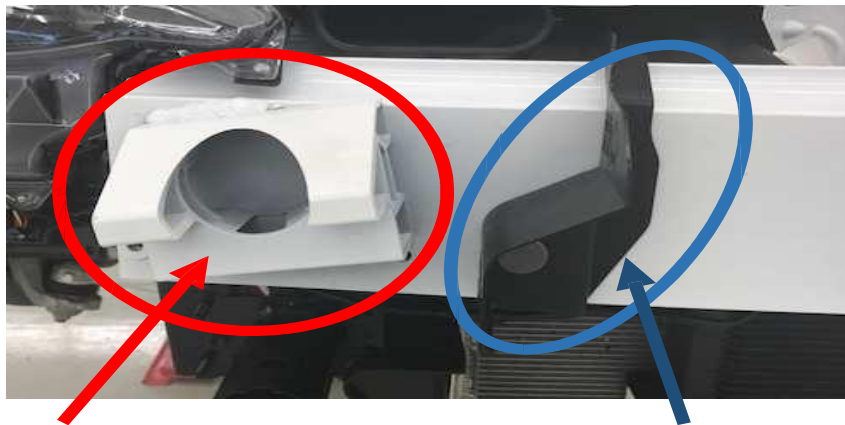

This TSB describes: How to install the Flis Performance High Energy Bumper Insert. This is designed to reduce damage to the bumper cover.

To install:

Remove all previously installed roll bar padding attached to the crash bar.

Remove the Right and Left Protrusion and the Air Guide.

Right & Left protrusions that must be removed

Air Guide that must be removed

Align the hole in the High Energy Bumper Insert with the toe hook and Zip Tie the insert into place around the crash bar.

Orders for the Mazda MX-5 Cup Series will be priority and can be placed with Flis Performance. They will be available for shipping immediately or delivery at the Mazda MX-5 Cup Daytona 2023 event.
